WASHING MACHINES

No Ordinary Washer

6 Motion Wash Technology

- LG's **6 Motion** wash technology offers 6 distinct wash actions, all based on traditional hand washing techniques. The machine automatically uses the appropriate motions for the wash program selected.

Smart Diagnosis 2.0

- LG's **Smart Diagnosis 2.0** allows the Washing Machine to talk for itself. If an error occurs, a phone call can be made to LG Customer Information Centre and the machine will emit a 6 second signal. This allows LG to diagnose the issue resulting in less wasted time and less inconvenience.

Direct Drive Motor

- LG's **Direct Drive Motor** when compared to LG's non-direct drive systems, gives less vibration, and less noise (54dB).

- **Greater durability** and that's why you get LG's 10 Year Direct Drive Warranty comprising of 2 Years Parts and Labour + 8 Years on the Direct Drive Motor (parts only)
